ABOUT FLAMINGO MOUNT KENYA

Flamingo Horticulture Ltd – Mount Kenya is part of the wider Flamingo Horticulture Ltd group. Our strength comes from our vertical integration providing our customers with the highest quality cut flowers and veg and driving supply chain best practice and innovation.

We pride ourselves on sustainable and responsible sourcing with strategic partnerships with our growers and customers. We offer a scaled, customer focussed approach with a broad customer base including major retailers in the UK and EU, as well as florists and wholesale customers in the EU.

We are foremost specialists in the growing, processing, marketing, and distribution of sustainably produced high altitude roses and a wide range of other cut flowers, foliage's, and fillers. Our Fairtrade, KFC Silver & OSHAS accredited Siraji packhouse is redefining the future of Kenyan flowers with added-value mixed bouquets delivered direct to Customer.

We also have an industry leading double blue (BRC / Tesco) high and low care vegetable processing facility producing premium and prepared vegetables for major retailers in the UK and EU.

We are the largest added-value producer and exporter of flowers, delivering over 73 million stems per annum. We produce and supply the UK and EU with 6.5 million kg of vegetables per annum.

FLAMINGO HORTICULTURE LTD

FAIRTRADE CERTIFIED

Flamingo Horticulture Fairtrade Association is a Community Based Organization that was established in 2007 and registered according to the statutory requirements of the Republic of Kenya with the aims of improving the socio-economic welfare of Flamingo Horticulture Ltd Workers.

In 2021, 13,296,328 stems of cut flowers were sold as Fairtrade.

The key focus areas include:

- Social Development
- Economic Improvement
- Environmental Management

Premium received in Mt. Kenya Region is managed by a committee of nine (9) elected worker's representative and three (3) appointed representative by the Management of the company who forms Fairtrade Premium Committee.

The project involves support of the workers and their community through the following;

1. Capacity building to workers and their Families
2. Support to Workers Health
3. Support to Community health and Education
4. Environmental conservation
5. Land Project and home improvement

PROJECTS FUNDED BY THE FLAMINGO HORTICULTURE FAIRTRADE PREMIUM

2021 END OF YEAR

FLAMINGO HORTICULTURE 2021 LONG SERVICE AWARDS

CARBON NEUTRALITY STATEMENT

MARCH 2021

CLIMATE CHANGE – SETTING THE CONTEXT

Human activities are estimated to have caused approximately 1.0°C of global warming above pre-industrial levels, with a likely range of 0.8°C to 1.2°C. Global warming is likely to reach 1.5°C between 2030 and 2052 if it continues to increase at the current rate.

A temperature rise of this magnitude will push critical natural carbon sinks beyond dangerous tipping points, initiating harmful feedback loops in the climate system.

This will amplify the impacts of anthropogenic emissions releases. Physical impacts such as fires, flooding, and storms, will continue to increase in frequency and intensity, leading to vast ecosystem and human impacts.

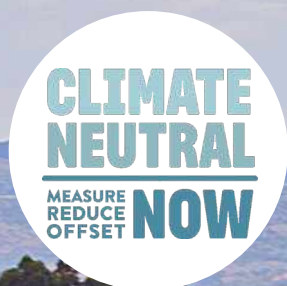

From a socioeconomic perspective, five systems are directly affected by climate change: liveability and workability, food, physical assets, infrastructure, and natural capital.

OUR CLIMATE NOW NEUTRAL PLEDGE

Flamingo Horticulture Ltd has taken the responsibility to measure, reduce, contribute and report and since 2019 we have been able to establish our Carbon Footprint.

We have partnered with One Carbon World to agree a carbon offset proposal certified to global UN standards which allows us to state that Flamingo Horticulture products are Carbon Neutral.

<https://unfccc.int/climate-action/climate-neutral-now/our-participants>

FLAMINGO HORTICULTURE INVESTMENTS LTD

CARBON NEUTRALITY STATEMENT

MARCH 2021

SUBJECT OF DECLARATION

The subject of this statement includes all activities under the Flamingo Horticulture Investments Ltd. operational control, covered under Scopes 1, 2 and 3 of The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition). The emission sources included in this statement have been detailed within this report.

This statement is compatible with international standards ISO 14064 and PAS 2060.

CARBON NEUTRALITY

Carbon neutrality refers to achieving net zero carbon dioxide emissions by balancing emissions with carbon removals (i.e., carbon offsetting). This is important as it allows global balancing of emissions while emissions reduction strategies are being implemented.

WHY IS CARBON NEUTRALITY IMPORTANT?

To avoid the worst effects of climate change, we need to take responsibility for our impact and act now to limit global temperature increases to 1.5 degrees Celsius, or well below 2 degrees Celsius above pre-industrial levels.

As set out in the Paris Agreement, offsetting plays an important role for rapidly deploying environmental solutions where it is economically most viable. This helps to bridge the gap between now and the time our societies will be able to phase out Green House Gas (GHG) emitting technologies.

In that respect, the Paris Agreement aims to accelerate the transformative change needed to reach carbon neutrality, ensuring that countries around the world will be increasing their ambition and action over the second half of the twenty-first century, while also supporting the achievement of Sustainable Development Goals.

One Carbon World Limited is a not-for-profit company limited by guarantee.

Registered in England No. 11948392 Registered Office: Unit 8 & 9 Parsons Court, Welbury Way, Aycliffe Business Park, Newton Aycliffe, County Durham, DL5 6ZE

MIXED BOUQUETS

ADDED VALUE MIXED BOUQUETS

With a comprehensive range of flowers, fillers, and foliage's, we are redefining Kenyan cut flowers with the design and production of added-value mixed bouquets.

We ship over 300 million added-value mixed bouquets per annum which are supplied to leading UK and European retailers and florists.

We offer a complete service from bespoke bouquet design to packaging design and procurement.

Alternatively, we can procure packaging to customer design including delivery boxes, sleeves, wraps, labels, flower food and added value components.

Below we have designed a vibrant range of mixed bouquets suitable for all customers, with the aim of maximising aesthetic and value perception.

Please contact us for more information and to discuss your requirements.
